

MODULE 23

NUTRITION OF OLDER PEOPLE IN EMERGENCIES

Part 1: Fact sheet

Part 2: Technical notes

Part 3: Trainer's guide

Part 4: Training resource list

Harmonised Training Package (HTP):

Resource Material for Training on
Nutrition in Emergencies

Module 23 Version 1, 2013

Acknowledgements

Numerous experts from many different organisations have been involved in writing the content of the HTP. Each module has been reviewed by a minimum of two reviewers from many of the academic institutions and operational agencies in the sector who have participated generously to ensure a high quality resource.

Module 23: Nutrition of Older People in Emergencies

Version 1 (Current):

Lead author: Mary Manandhar (Independent)
Contributors: Carmel Dolan (NutritionWorks)
Paul Rees Thomas (NutritionWorks)
Pascale Fritsch (HelpAge International)
Reviewers: André Briend (Independent)
Claudine Prudhon (WHO)

The HTP Module 23 Version 1 (2013) was produced and published by HelpAge International, PO Box 70156, London WC1A 9GB, UK, email: hai@helpage.org, www.helpage.org, and NutritionWorks, www.nutritionworks.org.uk

The entire HTP is hosted on the UN Standing Committee on Nutrition (UNSCN) website http://www.unscn.org/en/gnc_ftp/ and ENN website, <http://www.ennonline.net/ftpversion2>

For further information on the HTP, please write to Carmel Dolan, NutritionWorks at cmadolan@aol.com

International Public Nutrition Resource Group

ⁱ In 2007, the IASC GNC commissioned NW to develop a training resource to facilitate capacity development in the NiE sector. HTP Version 1 was launched in 2008. HTP Version 2 update was funded under an USAID OFDA grant to the UK based charity, the Emergency Nutrition Network (ENN). The update was led by NW which has been responsible for overall coordination and editorial management. The ENN has supported editorial management and module production

The Harmonised Training Package (HTP): Resource Material for Training on Nutrition in Emergencies

What is the HTP?

The Harmonised Training Package: Resource Material for Training on Nutrition in Emergencies (the HTP) is a comprehensive documentation of the latest technical aspects of Nutrition in Emergencies (NiE). It is organised as a set of modules by subject, each containing technical information, training exercises and a resource list for use in training course development.

The HTP is an initiative of the IASC Global Nutrition Cluster (GNC) and has been endorsed by the GNC and its member's agencies. The word **Harmonised** reflects the pulling together of the latest technical policy and guidance, the word **Training** refers to its main application and the word **Package** refers to the bringing together of the subject matter into one place.

What the HTP is not

The HTP is not a ready-to-use training course. It cannot be used as an 'off the shelf' package; rather, it should be used as a resource package during a process of course development by experienced trainers.

Who is the HTP for?

The HTP is a primarily a **resource for trainers** in the NiE sector and it can be used by individuals to increase their technical knowledge of the sector. It is designed to provide trainers from any implementing agency or academic institution with information from which to design and implement a training course according to the specific needs of the target audience, the length of time available for training and according to the training objectives. It is written in clear English and will be available in other languages in the future.

How is the HTP organised?

The HTP is organized into four sections containing a total of 21 modules which can be used as stand-alone modules or as combined modules depending on the training needs.

Section 1: Introduction and concepts

1. Introduction to nutrition in emergencies
2. The humanitarian system: Roles, responsibilities and coordination
3. Understanding malnutrition
4. Micronutrient malnutrition
5. Causes of malnutrition

Section 2: Nutrition needs assessment and analysis

6. Measuring malnutrition: Individual assessment
7. Measuring malnutrition: Population assessment
8. Health assessment and the link with nutrition
9. Food security assessment and the link with nutrition
10. Nutrition information and surveillance systems

Section 3: Interventions to prevent and treat malnutrition

11. General food distribution
12. Management of moderate acute malnutrition
13. Management of severe acute malnutrition
14. Micronutrient interventions
15. Health interventions
16. Livelihoods interventions
17. Infant and young child feeding
18. HIV/AIDS and nutrition
19. Working with communities in emergencies

Section 4: Monitoring, evaluation and accountability

20. Monitoring and evaluation
21. Standards and accountability in humanitarian response

Section 5: Additional Modules

22. Gender responsive nutrition in emergencies
23. Nutrition of older people in emergencies

Each module contains 4 parts which have a specific purpose as follows:

Part 1: The Fact Sheet – provides an overview of the module’s topic and is designed for non-technical people to obtain a quick overview of the subject area.

Part 2: The Technical Notes – for trainers and trainees, provides detailed technical guidance on current policies and practice.

Part 3: The Trainers’ Guide – aims to help trainers develop a training course and provides tips and tools which can be adapted to the specific training context.

Part 4: Resources – lists of relevant available resources (including training materials) for the specific technical area.

How to use the HTP

The HTP should be used during a process of course development. The process of course development involves a number of steps and these are summarised in the diagram below.
