APPLY NOW

Applications for the Academic Year 2015-2016 will be accepted
from November 1, 2014 to March 1, 2015

**M.Sc. in Agriculture
majoring in
Animal Sciences**

M.Sc. in Nutrition

ONE-YEAR MASTER OF SCIENCE DEGREES

The Hebrew University of Jerusalem's Robert H. Smith Faculty of Agriculture, Food & Environment offers 12-month, English-language M.Sc. programs (non-thesis).

Outstanding students may transfer to the M.Sc. thesis track for a second year of studies.

The programs are taught by leading researchers and industry professionals, integrating scientific theory and practical application with rigorous coursework and a research exercise.

On successful completion of the program, students will be prepared to address the challenges and opportunities related to agricultural intensification and environmental sustainability.

Academic studies are supplemented by field trips, sightseeing tours and social events to create a unique and stimulating experience.

Partial and full scholarships are available for qualified students.

Send applications to:
