

RESEARCH PRIORITISATION ON ACUTE MALNUTRITION

CHNRI Survey Summary Statistics

The CHNRI survey to support research prioritisation on acute malnutrition was open for five weeks (April 3rd - May 5th, 2017). The online survey was available in both English and French. A total of 394 responses were received during this period. A total of 81 responses were removed from the analysis, either due to repeat submissions or where a respondent entered their background information but did not answer any of the scoring questions.
