

Technical Rapid Response Team

## Thursday 9th April - **Child wasting programming in response and preparation to the COVID-19 pandemic: experiences from the field**

unicef  | for every child

The Tech RRT, World Vision, the Emergency Nutrition Network, UNICEF in collaboration with the Global Technical Assistance Mechanisms for Nutrition invite you to a webinar on Thursday 9th April at 2-3.30pm (Geneva time).

The webinar will communicate details of the recently published brief Management of Child Wasting in the Context of COVID-19, followed by case studies from Bangladesh (World Vision), Kenya (Save the Children) and Ethiopia (Goal) illustrating some challenges faced and adjustments put in place in child wasting programming in preparation for/response to COVID-19. Almost half of the webinar will be a dedicate time for practitioners to ask questions on putting recommendations of the brief into practice.

For more information on the webinar and details on how to register and join, please [visit the Tech RRT website here](#).
