

Tech RRT and partners invite you to four webinars supporting nutrition programming in the COVID-19 context.

With simultaneous French and Spanish interpretations available during the webinar!

1. **Wasting Case Detection in the Context of COVID-19**

A practical yet data-driven review of different anthropometric approaches for wasting case detection in the COVID-19 context.

Monday 27th July 2020 at 14:00-15:30 (Geneva time). Webinar in English with French and Spanish simultaneous interpretations.
