

MAMI Global Network

Management of small and nutritionally at-risk infants under 6 months and their mothers

MAMI Vision

Every small and nutritionally at-risk infant under 6 months and their mother is supported to survive and thrive.

Approximately 1 in 5 infants nutritionally at risk

(born too early or too small, wasted, stunted, underweight, growth concerns)

MAMI Global Network Mission

To build an effective and energetic network to enhance mutual capacity, bridge disciplines, address evidence gaps and champion MAMI care.

We aim that local, national and international collaborators work together to improve policy, evidence and practice for vulnerable infants under 6 months and their mothers.

Joining the network offers:

Monthly newsletters (in English and French)

Online peer-support meetings and networking

Support to country networks/chapters

Recent publications and key resources
